

Your CourseKey app is becoming **MyPortico.**

CourseKey is now part of Portico, the platform your school uses to support your academic journey. As part of this change, the CourseKey app is being renamed **MyPortico**. You'll see a new name and updated look starting in **late April 2026**, but your app experience will stay the same.

What you need to do:

Make sure your app is updated starting in late April (your phone may do this automatically)

When looking for the app on your phone, **look for the name "MyPortico"** instead of "CourseKey Student"

That's it — no new account or setup is required.

What is changing?

- New app name
- New logo

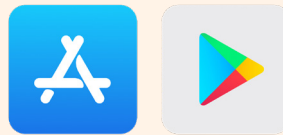

What is not changing?

- How the app works
- Your login, settings, and info
- Your academic data (attendance, skills, or payments details)

Why this change?

Updating the app name helps create a more consistent and connected experience for students. As a reminder:

- CourseKey = MyPortico (new name).
- Same app. Same account. Same experience.

Opening the app:
